Churn by Contract

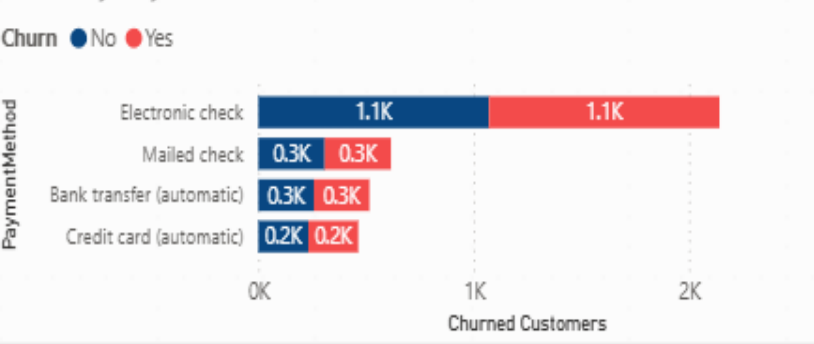

Churn Rate % by Contract Type

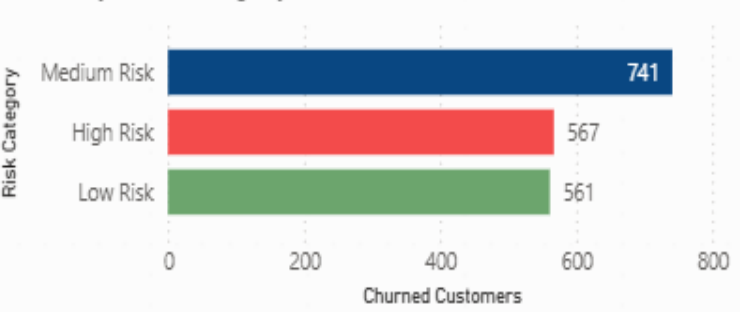

Churn by Tenure Group

Churn by PaymentMethod and Churn

Churn by Risk Category

Objective: Identify key drivers of churn and recommend actionable strategies to improve customer retention.

Key Insights

- Month-to-month contracts show highest churn, indicating low customer commitment.
- Customers with 0-1 year tenure are more likely to churn early.
- High-risk customers contribute significantly to churn.

Recommendations

- Target **high-churn customers** (month-to-month, low tenure) with offers & support
- Promote **long-term contracts** to improve retention
- Encourage **auto-pay methods** to reduce churn risk

Contract

- ☐ Month-to-month
- ☐ One year
- ☐ Two year

Risk Category

- ☐ High Risk
- ☐ Low Risk
- ☐ Medium Risk

PaymentMethod

- ☐ Bank transfer (automatic)
- ☐ Credit card (automatic)
- ☐ Electronic check
- ☐ Mailed check
